LUCAS ESPÓSITO TEJERINA

Systems Information Engineering Student

I'm Lucas Esposito Tejerina, I'm 21 years old. I'm a university student of Information Systems Engineering at the National Technological University of Buenos Aires (UTN FRBA)

Currently, with more than half of the career completed, I am looking for my first work experience where I can put into practice all the technical and theoretical knowledge seen these years, in addition to facing new challenges and learning for my professional training

PROJECTS

The projects I made can be visited from my personal portfolio through these links:
https://espositolucas.github.io/EspositoLucasDataWeb.github.io/
https://github.com/EspositoLucas

2023
CABA, Argentina

FIFA WORLD CUP QATAR : Analysis of the main important Data of the Fifa World Cup Qatar 2022 using **Excel and Power BI**

2023
CABA, Argentina

ETL PROCESS EXAMPLE SPOTIFY API : Data feed (data pipeline) using Spotify API with **Python, Airflow and SQL**. This feed will run daily, and it will download the data about the songs that were listened to during a day, and save that data in a SQLite database on a user local machine

2023
CABA, Argentina

NETFLIX MOVIES & TV SHOWS DATASET : Dashboard made in **Tableau** where is analyzed data about amount of titles by country, total of movies and tv shows by year, ratings of each movie/tv show with it's description and title and also a top 10 genre by counts of movies from the streaming media Netflix

2022
CABA, Argentina

GESTIÓN BAZAAR : University Practical Work of the subject Data Management where we try to simulate the implementation of a new system for the management of a business that sells bazaar/gift items both in a physical store and through an online platform. As objectives were achieved:

. To promote the investigation of database techniques using **SQL/TSQL** language through the **MS SQL Server 2012** database engine.

. To apply the theory seen in the course in a concrete application.

. Develop and test different algorithms on real data.

. Encourage delegation and group work**.**

EDUCATION

2020-2023
CABA, Argentina

Systems Information Engineering 5º Year
Approved Subjects : 32 of 43
Grade : 8.23
Universidad Tecnológica Nacional (UTN)

2019
CABA, Argentina

Bachelor of Social Science and Humanities
Grade : 8.31
Colegio La Salle Centro Buenos Aires
